

FS-600 series of high stability of the laser light source is a self-developed instrument, the application of advanced control technology, high output, ultra low-power operation. Available 1625nm, 1550nm, 1490nm, 1310nm, 1300nm, 850nm  $\square$  650nm, single wavelength  $\square$  dual-wavelength or tri -wavelength. Can output a variety of modulation frequency ( continuous, 270HZ, 1KHZ, 2KHZ) . can be widely used in optical communication, optical measurement, optical fiber sensing, and so on.

## Features:

- \* excellent stability and protability for fiber optic testing
- \* Optional auto-shutdown feature
- \* Large LCD display and backlight
- \* Battery power display

## Application:

- \* Maintenance Telecom
- \* Maintenance CATV
- \* Test Lab of Fiber Optic
- \* Optical fiber sensors
